Meyco's Kiddy Pool-Korral Removable Safety Fencing Has All The Features That Educated Parents Are Looking For.

Fence Sections Lock into Ground - Cannot be removed from the ground by a toddler, even if fence sections should become unlatched. Remains easy to remove by an Adult who is familiar with the design.

Smaller Holes - Unique anchoring system requires holes that are only 3/4" in diameter. Just like our flagship safety cover!

Thicker Sleeves - Specially designed, extra thick deck sleeves allow for snug fit as well as creating an important barrier between patio and fence.

Superior Fence Strength - Aerospace Steel combined with reinforced 1" Fluted Aluminum poles provide the

Strongest Removable Pool Fencing around. (Steel insert features 30 yrs + of corrosion resistant coating.)

4 ft Fence Height - Designed to meet most local codes

High Strength Poly Coated Mesh - Climb Resistant Design - Forms a strong resistant barrier between pool & play area.

High UV Rated Black Coating - Nearly invisible installation - Does not detract from the beauty of one's pool or backyard.

Kiddy Pool-Korral Removable "Tot-Lock"

Security Features Of Meyco's "TOT-LOCK"

Redesigned in 2002, the new "Tot-Lock" system is Stronger, Simpler and more Secure than ever.

Imagine a removable fence that requires holes that are only 3/4" in diameter (same as the familiar deck anchor) and imagine that it snugly fits inside a specially designed, Extra Thick sleeve that, in conjunction with the fence pole, locks into place so the pole cannot accidentally be lifted out of its hole. Now imagine that this fence is actually stronger than anything you have seen in the past.

That is what Meyco has done, hence the newly designed Kiddy Pool-Korral Removable Fencing with "Tot-Lock".

Un-Matched Layers of Protection.

As the originator of the safety pool cover, Meyco Products knows a few things about protecting your toddler.

Introducing the Enhanced Kiddy Pool-Korral Safety Fencing, engineered to keep toddlers safe and secure, designed to provide adults with easy set up and removal.

Permanent Strength on a Temporary Basis.

When properly installed, the Kiddy Pool-Korral Removable Fence has superior strength. Although its built Meyco tough, its also built Meyco smart. Almost impossible for a toddler to lift and easy for an adult, the fence can simply be twisted, un-locked and lifted out of the hole and rolled up for storage. Although it only requires a tiny hole, a plug can be placed inside the sleeve for convenience and further camouflage.

EXCLUSIVE "TOT-LOCK" DESIGN

INSERTED "TOT-LOCK"

Not Just for Pools.

Meyco makes Safety and Versatility go hand and hand. Using stock or custom sizes, you can create barriers for play areas, raised patios, driveways, docks or decks to name a few. Using optional hardware, you can install these barriers into various surfaces which gives you more options and uses than ever before.

Kiddy Pool-Korral is intended as an additional layer of Protection around the pool area and not recommended as the only barrier required by most code. Reference can be made to the NSPI (National Pool and Spa Institute) at NSPI.ORG, under Water Safety see "Children aren't Waterproof" and "Layers of Protection".
